

Kiaora TEU members, I have been nominated for a General Staff position on the IPC committee. I am currently in this role after been co-opted onto this committee in 2017.

I am a Chemistry technician in the School of Science at Waikato and have worked here for many years.

Since starting at Waikato, I have been involved in the NZ Technicians Union, and after all the amalgamations took place I took on the role of our branch President for AUS.

Currently I am a Waikato Branch Co President focussing on general staff members and hope to be able to continue representing general staff on the IPC committee for the next term.

I am determined that general staff will be equally represented in our union and to ensure that they all feel that TEU does provide a place for them.

I feel that being on the IPC will enable me to continue to fight for a voice for general staff at the National Level and I look forward to representing you.

ngā mihi

Annie
